08.07.23 – 05.08.20

SMART CAMP

Program in style Reality show!

The SMART CAMP 2023 program is built in the style of a reality show. In addition to the learning process with the best teachers, an interesting program and acquaintance with the main sights of Malaysia, the children take part in daily competitions that develop logic, speed of thinking and team spirit.

The winners of the contests receive prizes in the form of gold (150 points), silver (100 points) and bronze (50 points) coins. Coins can be used to purchase various goods and services, or to give, borrow, or even lose – all the same as with money. However, in this show, spendthrift is not the main thing. The main goal is three super prizes, which will go to those who have more unspent coins on their hands at the end of the month. A list of what exactly each participant will be able to spend their winnings on is given to everyone upon arrival. There are many options: from a simple souvenir to a Ferrari ride through the super modern city of Singapore or a flight over the twin towers on a 4-seater Cessna plane. And at the end of the program, a pool party, a barbecue dinner and a disco!

SMA

AMP

Final prizes of the program

A trip to Kuala Lumpur for 4 days and 3 nights for parents.

or

Dinner for two in a revolving restaurant in Kuala Lumpur's KL Tower TV Tower.

A trip to Kuala Lumpur for 6 days and 5 nights for parents.

or

Flying a private 3 seater Cessna jet around Kuala Lumpur and the Petronas Twin Towers.

A trip to Kuala Lumpur for 3 days and 2 nights for parents.

or

A visit for 2 persons to the Petronas twin towers with a lift to the bridge (41st floor) and to the observation deck of the 86th floor.

The main goals of the program

Improve the leadership qualities of each participant through daily rounds of team building;

Develop the logic and speed of thinking of participants in a team and individually;

Improve your English language skills by fully immersing yourself in an English-speaking environment;

Discover the unique beauty of Malaysia with its unique nature and thriving megacities;

Visit the most technological city in the world Singapore; Spend a vacation on the coast of The Andaman Sea.

Have an unforgettable rest...

SMART CAMP

Program

THE 21ST CENTURY IS A CENTURY OF TECHNOLOGY AND DISCOVERIES!

Knowledge of English alone is now no surprise to anyone, knowledge of three or even four languages at once becomes the norm. Therefore, if you don't speak English yet, hurry up to learn it! In this program, we will help you improve your English language skills during interactive lessons and eliminate the barrier of communication in a foreign language through informal communication during games, contests, team building and excursions to interesting places. Smart Camp 2023 will surprise you in a new way by including new components in the program! A unique camp harmoniously combining youth recreation with the study of the skills most necessary for a modern leader – innovative teaching of English, blind printing, speed reading. The program also includes elements of mental arithmetic – something you won't find in any other camp! And at the end of the program, each participant will receive a LEADER CERTIFICATE

SMART

Evening Activities

Residence Accomodation

In the Smart Camp summer Camp program, we offer accommodation in a new residence in a prestigious area of Kuala Lumpur. It offers an outdoor rooftop swimming pool, a gym and free Wi-Fi. The apartments with a kitchenette are equipped with a large TV with international channels. The spacious bathroom comes with a hairdryer and toiletries. Accommodation in an apartment with two bedrooms, a shared living room and a kitchenette. In one bedroom there is a Queen Size single wide bed, in the second bedroom there is one Single Size bed + a pull-out Single Size bed. Each room has a wardrobe and a safe. In the room: TV, air conditioning, microwave, refrigerator, tea/coffee making facilities.

CAMP

Wonderful living conditions

Excursions

We offer the most interesting excursions in our program:

Sightseeing tour of Kuala Lumpur, including a visit to the King's chamber, a Chinese temple with a magnificent view of the city center, the central square with the Sultan Abdul Samad building, drive through the old quarters of the city, visit the central mosque, observe the production of batik or chocolate and take pictures against the background of the "crystal" twin towers

Petronas Visit to the Petrosines Interactive Museum

Batu Caves

Excursion to the most technological city of Putrajaya

A trip to the firefly River, with a visit to the firefly river and dinner in a traditional Chinese café

The art of batik, an excursion to the workshop

Visit to the most unusual shopping center "Sunway Pyramid"

A trip to the chocolate factory

Trip to the sea for 3 days/2 nights (optional) Trip to Singapore for two days and one night (optional)

A trip to the Sunway Lagoon Water Park (optional)

Visit to the Kidzania Vocational Education Center (optional)

A trip to the Skytrex Rope Park (optional)

And many other interesting excursions

SM

CAMP

Putrajaya is a government city that impresses with its beauty. It is located at a distance of 30 km from Kuala Lumpur and was built to show the “views” of Malaysia for the future. A mixture of architectural styles will surprise any designer here, because the most incredible ideas of the world's leading architects were involved in the construction! For sure, the guys will be amazed at what bizarre shapes buildings can take, how original it is possible to illuminate the streets.

Excursion To Putrajaya city

A few minutes from Kuala Lumpur, in limestone rocks covered with dense tropical vegetation, grandiose caves are hidden. For millions of years, water has been sharpening stone here not only to create beautiful and amazing monuments of nature, but also – what is amazing – human culture, too. Our Russian-speaking guide will guide the children to the entrance of the cave by a staircase with two hundred and seventy-two steps. This is a unique upward pilgrimage that Hindus make regularly. Here, inside and outside these unique caves, are some of the most beautiful Hindu temples in Malaysia. Also, at the end of an exciting excursion, the guys will stop by the royal foundry, where utensils and souvenirs have been made from tin for more than a century.

Batu Caves

Excursion to the Firefly River

Guess what bugs in the absence of an electric light bulb can light up the house? True, the luminescence will turn out to be weak, however, the Indians of some wild tribes still tie these insects to their toes today in order to see where to go at night. Yes, these bugs are fireflies. And in their family, everything glows: males, females, larvae, pupae, and even eggs laid by fireflies. This tour is so bewitching with its beauty that you will want to come back here again and again. In terms of the tour, you will visit the friendly silver monkeys on the hill, visit the house of a Malay living in the village, who will enthusiastically show you his life and home. Have a seafood dinner at a Chinese restaurant and when it gets dark, swim along the river, on the banks of which the fireflies live.

Excursion Petrosains museum

This museum is the dream of not only any child, but also an adult. How a volcano erupts, what a person feels during turbulence, what dinosaurs looked like and much more – all this can be learned under one roof, on the fourth level of the Suria KLCC shopping center, which is located between the twin towers. Touching the exhibits with your hands is welcome! Twist, pull, push and rotate – this is how the interactive Petrosains museum helps children to get acquainted with the world in an interesting and useful way.

Team building Quests, games

In addition to the process of learning English with the best teachers, an interesting program and exploring the main sights of Malaysia, the children take part in daily competitions that develop logic, speed of thinking and team spirit.
